Subject: Comment in support of RIN 1210-AB30

April 25, 2010

As a mental health professional, I can assure you that access to affordable mental health care is vital to individuals, families and communities. Without adequate care and interventions, people with mental health issues may end up homeless, hospitalized or even incarcerated. Please support this rule that would allow people to seek the help they need to survive.

Sincerely,

Laurie Roberts
